Conserve Insight™ Energy Use Monitor

Be Smart About Energy

Use Energy Wisely

Save Energy; Find Electricity Wasters

Find out how much energy your devices *really* use - including watts, the cost of operation and the amount of carbon dioxide (CO_2) produced in generating the electricity consumed. See at a glance the true impact to your wallet - and the environment.

Benefits

Make Better Energy Decisions
See how much different devices cost to use on a yearly or monthly basis.

Know Your Environmental Impact
Shows power-plant CO_2 emissions produced to use your device on a yearly or monthly basis.

Easy to Read
1.8 metre cord allows you to read display at eye level or place on a table.

Customisable
Use the preloaded average electricity rate or enter your own rate off your electric bill; you can also set the CO_2 emissions rate for your specific region.

Tracking Feature
Tracks your actual device usage over time and projects the cost of operation.
